Informed Consent / Assumption of Risk:

I, _____, am aware that there are significant risks involved in all aspects of physical training. I understand that the reaction of the heart, lungs and vascular system to exercise cannot always be predicted with accuracy. I understand that there is a risk of certain abnormal changes occurring during or following exercise which may include abnormalities of blood pressure or heart rate; chest, arm or leg discomfort; transient light-headedness or fainting; and in rare instances, heart attack, stroke or even death. Excessive work can result (in rare cases) in exertional rhabdomyolysis. I should look for signs of excessive soreness, darkened urine, and pain in the kidney areas in the days following a particularly intense workout. While this type of injury is relatively rare, it can occur due to a number of factors, including (but not limited to) genetic predisposition or dehydration, that may be beyond the control of my trainer. I understand that the programs and classes offered by Solidarity CrossFit are of a nature and kind that are extremely strenuous and can/may push me to the limits of my physical abilities. These risks include, but are not limited to: falls which can result in serious injury or death; injury or death due to negligence on the part of myself, my training partner, or other people around me; injury or death due to improper use or failure of equipment. I am aware that any of these above mentioned risks may result in serious injury or death to myself and or my partner(s).
